ABSTRACT

Stickybear's Science Fair: Light is a tool for teaching science skills using computer software. To enhance the use of software printed lesson plans are also provided including worksheets, labs, templates, and other materials needed to complete the activities. There are 12 lesson plans. Each of the lesson plans includes activities, an area focus, a description of the method used, the goals and objectives, the materials required, the area of emphasis, several variations, assessment plans, and discussion.
